Who Should Attend?

If you are concerned that a loved one is at risk for overdosing on heroin or a prescription pain medication, this training is for you!

What will you learn?

Trainees will learn:

- * How to recognize, respond to , and prevent an opioid overdose
- * How to administer intra-nasal naloxone to reverse an overdose

What is Naloxone?

It is a prescription medication that reverses an opioid overdose. It cannot be used to get high and it is not addictive.

What will I get for completing the training?

You will receive a certificate card of Completion accompanied by the tools necessary to intervene in the event of an overdose.
